

ATG/BECTU Rock & Roll Procedure

April 2018

The Key aim is to remove the use of non ATG staff.

Venues are encouraged to manage the cost of wages and to ensure promoters have approved these before they are incurred. This is to ensure that all costs are visible and authorised before the crew is called.

The default rate offered will be UKT. If the Producer/Promoter declines the UKT rate and wishes to hire an external local crew. Then the R&R rates may be offered to secure the work for the venue crew.

The R&R rates will only apply to music, named artist one night shows. (Non Theatrical)

Under these procedures, ATG and BECTU have agreed that any visiting Producers/Promoters will use the full time members of the crew or any other in house crew that may be specifically required because of their skill set i.e. (Rigger, Flyman) and will be charged the UKT rates. All other crew called, as humpers will be paid the R&R rates.

Should this be not accepted then please refer to the appropriate Divisional Manager who will ensure resolution is agreed and implemented.

This agreement will not apply to any type of show more than one night.

Most one-night theatre shows only need the basic crew or more specialised staff, which will fall under the UKT rates.

If the house crew has been fully employed and the call is not filled then an outside crew may be sourced. The visiting company may tour staff with the production but cannot employ non ATGV staff unless extra crew are needed to fulfil the call.

ATG and BECTU will review the rates annually and any changes will be notified to venue managers accordingly.
